Substance Abuse Mental Health Services Administration

PROTOTYPES Centers for Innovations in Health, Mental Health and Social Services

The Pacific Southwest Addiction Technology Transfer Center/

UCLA Integrated Substance Abuse Programs

The Staff Development Committee

CalWORKS/DPSS

You are invited to the Fifth Annual Statewide Conference on Co-Occurring Disorders in Long Beach, California. With the passage of the Mental Health Services Act (Proposition 63), there is a renewed focus on engaging the consumer on every level to transform mental health/co-occurring services to a recovery model. The conference will provide an important opportunity for key stakeholders (policy-makers, service providers, administrators and front-line staff of CBOs, educators, researchers, consumers, families, etc.) to explore state-of-the-art models, practices, and findings about co-occurring disorders. Participants will also gain understanding of how these models, practices, and findings are applied to treatment and dissemination of information to improve outcomes.

The Conference objectives are as follows:

- ◆ To further the collaboration between Alcohol and Drug Programs and the Department of Mental Health at the State and County levels;
- ◆ To highlight the changes in treatment systems that are occurring with the passage of the Mental Health Services Act;
- ◆ To disseminate best practices to address the complex needs of persons with co-occurring disorders; and
- ◆ To increase awareness of strategies to engage specific diverse populations with co-occurring disorders.

The Conference program is structured around 5 Tracks:

- ◆ Across the Lifespan: Children, Transitional Age Youth, Adults, Family, and Older Adults
- ◆ Criminal Justice
- ◆ Cultural/Diversity Competence
- ◆ Innovative Models of Treatment
- ◆ Psychiatry
